

To Whom It May Concern:

I am a viewer of Fox evening news in Madison, WI. I have to express how much sickens me each evening that George Bush has the benefit of what is basically a free political ad in the middle of the news. Each night, we are exposed to a segment featuring Mark Hyman spouting off his rhetoric and anti-democrat, anti-Kerry opinions. That doesn't seem right. Isn't the NEWS supposed to be a little less blatantly biased than that? I believe Sinclair Broadcast Group behaves unethically and presents a risk to the public by not providing truth and balance in their journalism.

Thank you
